## 60 Months Warranty

# Heat Sealed Tubular Battery : Benefit's

- Longer Life - Low Life cycle cost
- Ideal for cycle and float applications
- Trouble free Performance - Higher reliability
- High power at different rates of discharge
- Low Maintenance cost
- Safe to use. Suitable for deep discharge application
- Low self discharge
- Tolerant to high temperature applications

## Technical Parameters of PRO C10 Tubular Batteries

			Product Overall Dimension			Charge Current				Application
Type	No. of Plate	10 Hour rate Capacity	L	W	H	Start	Finish	Electrolyte volume	Weight	
PRO 40	2+3	4 hrs	405 mm	173 mm	290 mm	4	8	5.85	48	• UPS
PRO 60	3+4	6 hrs	500 mm	220mm	290 mm	6	12	5.90	50	
PRO 80	4+5	8 hrs	510 mm	275 cm	290 mm	8	16	5.60	49.50	
PRO 100	5+6	10 hrs	510 mm	275 cm	290 mm	10	20	12.00	53	• Inverter
PRO 120	6+7	12 hrs	510 mm	275 cm	290 mm	12	24	10.80	55	
PRO 120 TT	3+4	12 hrs	520 mm	190 mm	460 mm	12	24	10.80	60	
PRO 150 TT	3+4	15 hrs	520 mm	190 mm	460 mm	15	30	11.40	65	• Solar
PRO 180 TT	3+4	18 hrs	520 mm	190 mm	460 mm	18	36	14.10	68	
PRO 200 TT	4+5	20 hrs	520 mm	190 mm	460 mm	18	36	13.44	75	• Telecommunication
PRO 220 TT	4+5	22 hrs	520 mm	190 mm	460 mm	18	36	13.45	80	

## Why Alpha is best Battery among others?

### - Factory charged Batteries

(uninterrupted charging of batteries for long life)

Factory charging of batteries is important to the battery life, as is mothers first breast feed to the new born child. Recognizing this Alpha has a 5 Mega watt connection in plant with 100% generator backup to secure flawless & uninterrupted first charging for 72 hours.

### - 99.991% Pure Primary Lead

(for better performance)

Alpha imports best quality primary lead of purity 99.991% from Australia. This ensures longer battery life.

### - 30% Extra Electrolyte

(for less frequent water topping)

Alpha Batteries have a bigger container to store 30% more electrolyte so that you need to do water topping less frequently.
